For over 16 years Oregon Partnership has been the premier resource for drug abuse prevention education, treatment referral and crisis intervention in Oregon. Throughout the years we have served over 300,000 Oregonians.

The need for our services has never been greater. Calls to our suicide crisis line have tripled in the past year, and more and more returning soldiers, veterans and their families are turning to us for help. We hope you will join us as we work to ensure that our critical services continue to be delivered to those who need them most.
